Some films in recent decades have been recorded using analog video technology similar to that used in television production. Modern digital video cameras and digital projectors are gaining ground as well. These approaches are preferred by some film-makers, especially because footage shot with digital cinema can be evaluated and edited with non-linear editing systems NLE without waiting for the film stock to be processed. The migration was gradual, and as of 2005, most major motion pictures were still shot on film.needs update

Within the industry, it is suggested that after the pandemic is contained and major events reschedule, the less-important business events and festivals may be more permanently removed from industry calendars, to allow more important events to happen, because they may be deemed unnecessary if no great effect is felt by their cancellations, and to ease finances of the industry as it enters a recession brought about by coronavirus-caused losses.<sup>70</sup> The Tribeca Film Festival and YouTube worked with several international partner film festivals to launch We Are One: A Global Film Festival, an international online festival of films screening for free on YouTube between May 29 and June 7.<sup>71</sup>

The Association of Independent Commercial Producers AICP released a set of guidelines and work place practices in early-May 2020 as restrictions began to lift across the U.S. This set included specific guidelines for all departments and worksites involved in productions.<sup>166167</sup> An industry task force of studios and unions submitted a report on June 1, 2020, with various recommendations on health and safety guidelines for cast and crew of productions. These guidelines include regular testing, wearing face coverings at all times when not filming, actors practicing social distancing whenever possible, reducing or modifying scenes involving close contact, and recommending that casting be performed via videoconferencing or self-recorded video rather than in-person.<sup>168169</sup>
